

September 2, 2016

Welcome Back! We are happy to report that we had a smooth opening to the 2016-2017 school year.

As promised, please see below a status update of the work being performed here at Pointers Run Elementary as a result of Howard County Government hiring an independent contractor to conduct an assessment of our school's air quality in June.

<b>PRES Recommendations</b>	<b>Status Update September 2, 2016</b>
A reassessment of classroom 3126, which should focus on evaluating moisture content of various building materials.	Completed
Opening up the wall and/or ceiling cavities associated with any identified moist materials and completing a thorough visual inspection of the cavities in classroom 3126.	Completed

As a reminder, our building services staff has these recommendations and will be implementing all of them. Status updates will be provided every Friday, as the recommendations remain "in-progress." If you would like to read the entire list of recommendations and supplemental information provided by the contractor, they can be found on our school's website under About – Indoor Environmental Quality.

Again, I want to assure you that our building and our portables are safe for students and staff. We are looking forward to a great school year.

Sincerely,

Lenore Schiff, Principal
